April 2026

Dear Local Business:

As you may know, the Ottawa Valley Waste Recovery Centre (OVWRC) produces compost at our facility located at 900 Woito Station Road. We offer two types of compost for purchase:

1) Leaf & Yard Waste Compost

- Produced from leaf and yard waste delivered by customers and collected curbside in Petawawa, Pembroke, and Laurentian Valley.
- **\$25 per cubic yard** (no bulk rate available, while supplies last)

2) Source Separated Organics (SSO) Compost

- Produced from green cart material collected curbside in various Renfrew County Municipalities.
- Typically higher in salt content than leaf and yard waste compost.
- ****NEW PRICING FOR 2026**** - Available in bulk, **4 cubic yards or more** (purchased at one time) at **\$8 per cubic yard + HST (\$9.04 per cubic yard)**. This is special pricing for 2026 ONLY.

A lab analysis report is available upon request for any purchased material.

Bulk loads of compost (4 cubic yards or more) are available year-round (while supplies last and weather permitting). Loading is offered **Monday to Thursday, between 9:30 AM and 2:30 PM**. Please provide at least **24 hours' notice** prior to pick-up.

For more information, please contact Elizabeth Graham, Communications & Special Waste Supervisor at 613-735-7537, ext. 216 or egraham@ovwrc.com.

Sincerely,

A handwritten signature in cursive script that reads "E. Graham".

Elizabeth Graham
Communications & Special Waste Supervisor
